

IV SEDATION Pathway & Pt Charges

(unless pt exempt)

FINAL KLDC Oct 2021

If referring for **sedation** remember to advise the patient there is a charge for sedation payable (unless exempt) to the sedation practice as sedation is a separate COT. The dentist at the sedation practice will carry out an examination, so treatment proposed may vary.
<https://www.nhs.uk/nhs-services/dentists/dental-costs/understanding-nhs-dental-charges>

***Please note:** If the patient requires further treatment under the banded COT, the dentist should be prepared to open up this COT and amend the completion date as the treatment isn't actually completed until the all clinically necessary treatment that the patient accepts has been done.
